Fall Clean Up Campaign In Grayling

We have set Sept. 28th to Oct. 2nd as our annual fall clean up campaign for Grayling. This spring we spent about a month on this project and much was accomplished. Some promised to complete jobs which they have not done, perhaps because they haven't had the time. Now that the summer is over and the children are back in school, we are appealing to your community pride again to help us in giving Grayling its FALL HOUSECLEANING.

On Sept. 27th, 28th and 29th, the Citizens Participation Committee will again canvass all streets and point out "eye sores". These include junk or unlicensed cars, scrap piles, old refrigerators, dilapidated sheds, broken down fences, steps that are not safe and cluttered yards.

There has been a terrific improvement in Grayling this past summer but let's not stop now. The junk cars are one of the worst "eye sores". This is in violation of the City Ordinance and is subject to fine. There is no reason to keep an old car body or car that will not run in your yards. It makes the whole neighborhood look unsightly. It is a safety hazard and attracts rats.

Oct. 1, 2, and 3, is the White Tail Roundup in Grayling. Many tourists will be visiting our community. This is a good time to get things cleaned up and really attractive. You want more business, you want industry and more jobs. This is the first obligation to make Grayling the kind of a city industry is proud to locate in.

WE HAVE 15 people on our Citizens Committee now and could use a number of volunteers. If you would have a little time and could help us in our survey and contacts, please call the Grayling Housing Commission at 348-8014 and let us know. The more workers we get the less time each one has to give.

With all the businesses and residents along US-27 and anyone else who has time, please pull the high weeds that tower above the petunias. Our flowers still look nice and will add to the looks of our city for the fall tourists and school tours. This is OUR CITY, each and everyone of us. Let's make it the cleanest and prettiest in the state of Michigan. HELP NOW.

Ben Franklin Announces Plans For Modernization

A complete modernization and expansion program for the Grayling Ben Franklin Variety Store, was announced this week by Emil L. Kraus, owner. Work will begin immediately and will be completed about November 1, 1965, he said. All new display counters are to be provided.

"This expansion will enable us to offer Grayling families a wider selection of quality merchandise, arranged in self-service displays which give the greatest convenience to shoppers," Kraus said. "Special attention will be given to comfortable lighting, wide aisles, and counters which put all articles within easy reach."

Kraus said he planned the remodeling program in consultation with the Ben Franklin Distribution Center in Chicago Illinois which is affiliated with City Products Corporation, a nation-wide merchandising organization with headquarters in Chicago. The final plan was made, he said, on the basis of scientific studies of variety merchandise displays, customer buying habits, and recent trends in U. S. retailing.

In addition to providing store management assistance, the City Products Corporation maintains one of the largest national organizations of variety merchandise buyers, enabling Ben Franklin Stores to give shoppers the benefits of low-cost quantity buying.

EXPLAINING the group buying, or co-ordinated merchandising plan for independent variety stores, Kraus said that professional buyers travel to all parts of the U. S. and to many foreign countries, visiting 2,500 sales offices and manufacturing plants in order to hand pick select merchandise. On the average, buyers examine more than 20 new products for every one they select as being of top quality suitable for Ben Franklin Stores, putting every product through many tests before it is accepted. Once satisfied that the product meets Ben Franklin's rigid standards, the buyer then is able to make a quantity purchase, passing on savings to shoppers in local stores. Over 14,000 items from hundreds of nationally known manufacturers are speeded to the store from its large modern distribution center in Chicago.

James Grice of Cadillac, Zone Manager of Ben Franklin stores is in charge of the program.

Boyne City Opens Home Grid Season

The Grayling Vikings open their home football stand of the season at the gridiron at the Grayling Memorial Recreation Area under the lights against the powerful Boyne City Ramblers this Friday night with the kickoff set for 8 p.m.

BOYNE, fresh from a 13 to 0 victory over the Petoskey Northmen appear to be the top team of the Northern Class C Conference this year. Grayling lost their opener at Harrison last Friday night to the Hornets by a tight 13 to 6 score. The Hornets with 19 lettermen back were a strong foe for the rebuilding Vikings to meet.

Other conference teams also had bad luck with their opening games. The always tough Charlevoix Rayders were defeated by Class B Rogers City 12 to 6 while the Gaylord Blue Devils succumbed to the Class B Cheboygan Chiefs by a 6 to 0 count.

The East Jordan Red Devils served notice of strength as they stopped Kalkaska's Blue Blazers 18 to 0. Mancelona's Ironmen took a 33 to 6 shellacking at the hands of the Elk Rapids Elks.

This Friday night besides the game here, Grayling will be at Harbor Springs, Mancelona at Charlevoix and Pellston at East Jordan.

Last Friday night, Grayling ran into a peculiar situation with the Harrison gridiron wreathed in heavy fog and the Hornets dressed in their home white uniforms. At times it was impossible to see across the field. It led to a trying time for the coaching staff which was attempting to find out Grayling's errors on defense.

AFTER a scoreless first period, the Hornets managed to block a Dave Nethers punt and recover the ball on the 13 yard line. The Vikings held Harrison to a fourth and one but the host team managed a first down and on the second play of the series the quarterback sneaked in for the score. On the try for point, Grayling was offside and on their second chance Harrison ran in the point to take a 7 to 0 lead.

In the third quarter, Harrison back David Ferguson, brother of Grayling coach Don Ferguson, broke over his right tackle and went 21 yards to score. Paul King stopped the Harrison run for extra point and the Hornets took a 13 to 0 lead. Late in the third quarter, the Vikings got a drive started that was capped with a 40 yard pass and run play from quarterback Pat Thompson to Dave Nethers. A pass for extra point went amiss. Leaving the score 13 to 6.

On two kickoffs, Grayling receivers were stopped from going all the way by the last defender. Also during the second half, Grayling marched almost the length of the field only to lose the ball on the Harrison 25 on a fumble.

Bob Smock, senior right half-back was voted the game's outstanding performer by the Grayling fans. He gained 22 yards on 6 carries and was outstanding on defense, halting many Harrison attempted end sweeps.

Coach Mike Wieland was happy with both the work of the Viking offense and defense. Quarterback Thompson rolled out at one time near the 50 yard line on a fourth down and finding his receiver covered were on for a first down. This 15 yard run kept the Viking touchdown drive going. Thompson completed 6 passes out of 14 attempted for 88 yards.

Several freshmen in their first game looked very good. Coach Wieland said. Chancey Carr in the middle of the line held out well until an injured fullback, Terry Wright, Paul King and Dave Nethers were standouts on defense.

Crawford County

Tourist Information

Our forest colors are beginning to show, and our county roads and trails are beautiful to drive and view. Mother Nature at her best.

Fall mushroom hunting time is here and many areas of our county have good picking. The Deward Hills area near Frederic still has luscious blackberries to pick. Our abandoned apple orchards of the county offer choice apple picking for anyone who wants them.

Day canoeing and canoe-camping is tops with our beautiful fall days, and the opportunity to observe our bird-life and wildlife is unequalled. Trout fishing in the quality section of the Ausable Main Stream is good, and nice catches of trout were taken this weekend.

Bits O' Talk

Mr. and Mrs. Harold Walker and Dr. and Mrs. Leonard Allison spent a few days fishing at Cedarville. The previous weekend the Walkers were at Grosse Pointe visiting the Vernor Davis family.

Mr. and Mrs. Clair Melroy, Dale and Kim enjoyed a trip to the Wisconsin Dells recently, Sept. 8th to 12th. They ran into Ed Feldhauser and daughters Bessie and Dora, who were there at the same time.

The Robert Bovee family were in Detroit on business weekend before last and visited his mother, the William Zimmermans, Sr.

Mr. and Mrs. Alton Allison have returned to their home in Ypsilanti after several days visiting Mrs. Wilhelm Raab.

Joe Robertson left Wednesday for Alma College. His brother, Eddie has been there for a couple of weeks, trying out for football.

ISSUE WARNING ON SCHOOL BUS SAFETY

Mt. Pleasant — Schools throughout Central Michigan are opening for a new year, prompting school transportation officials at Central Michigan University to issue some safe driving warnings.

"With the school buses back on the road, this is a good time for all of us to review some of the basic rules regarding driving safety," says Keith Allen coordinator of school transportation at Central Michigan University.

Allen reminds that state law requires that the driver of a vehicle shall not overtake or meet and pass any school bus which has stopped for the purpose of receiving or discharging passengers.

"Passengers crossing the road after leaving a school bus should cross in front of the stopped bus," Allen says.

"The bus driver must stop off the roadway as far as possible when receiving or discharging passengers, and he must warn other drivers with his flashing red lights early enough so they can stop. Drivers should be alert for these flashing red lights."

Allen also reminds school bus drivers that they are responsible to help keep traffic moving smoothly.

"This should be done by turning off flashing red lights after picking up or discharging passengers and then by moving very slowly, keeping off the roadway as far as possible until vehicles have passed."

"Observance of these rules could make this the safest school year yet," Allen claims.

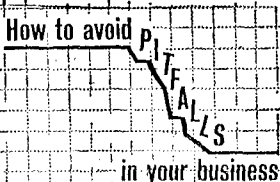

Area Group To Study New Economic Act

The new Public Works and Economic Development Act will receive major attention when members of the Northern Great Lakes Resource Development Committee meet in Wausau, Wisconsin, September 21-22.

The committee, including representatives from Michigan, Wisconsin and Minnesota, was organized shortly after the 1963 Land and People Conference in Duluth. But there has only been a trickle of state and Federal funds available for the group to carry out development projects that could influence the three-state area. At the Wausau meeting, U. S. Commerce Department representatives will review specific types of proposals the committee could consider which might qualify under the act.

The tri-state development committee delegate body includes the following persons from the Upper Peninsula and the northern sections of the Lower Peninsula: Harold Dettman of St. Ignace, Edward Gould of West Branch, Fred Hahne of Manistique, Roy Howes of Copeish, Roy Jensen of Escanaba, Stanley McKee of Mackinac City and Edward Mawby of Suttons Bay.

Michigan State University Community Development Specialist Dr. William Kimball of East Lansing and Ray Gummerson of Marquette are serving as consultants to the group. Also represented on an advisory panel are members of several U. S. Department of Agriculture agencies.

Fourteen County Ladies At Household Training

On Monday, September 13, fourteen local ladies belonging to Crawford County Home Extension Study Groups, attended a training meeting on Household Management held at Higgins Lake.

The program was sponsored by the Cooperative Extension Service and was under the direction of Mrs. Juanita Van Valin, Home Agent from Roscommon.

A lesson on Household Equipment was taught by Eleanor Delany, Home Economist from the Hoover Company. Information on the use and care of cleaning equipment was featured.

Mrs. Lucile Bush, Consumer Educational Director for Johnson's Wax, discussed the household cleaning products available on the market, and which product to use for a specific task.

The subject of Household Pests was discussed by Dr. Gordon Guyer, head of the Entomology Dept. at Michigan State University.

Einer Olstrom, Northeast District Extension Director gave a talk on the importance of the Home Extension Groups and said that in the future the county women will have to assume more of the responsibility of the work involved if we are to maintain the high standard of the Study Groups. This is due to the rising cost of operation on the same budget as last year.

A very nice lunch was served by the Conservation School and enjoyed by everyone. From the remarks after the lessons, they were enjoyed by everyone and it is hoped

that we will be able to have more of the joint meetings with other counties in the near future. There were 108 members and guests present with 24 from Crawford County.

EXPLAINS '65 SOCIAL SECURITY AMENDMENTS

Editor's Note: This is the first of a series of columns by E. O. Wilf, social security district manager in Traverse City, telling what the social security amendments of 1965 mean to you and your family.

Many area young people who receive social security benefits as the children of retired, disabled, or deceased workers and who have not finished their education by the time they reach 18 can continue to receive payment until they finish school or reach age 22 as a result of a change in the law.

FORMER beneficiaries whose benefits stopped when they reached age 18 who are not yet 22 can have their benefits started again if they are attending school full time. These students will be required to file new applications for benefits. Retroactive payment can be made for months in which a

student was attending school full time as far back as January 1965. Anyone between 18 and 22 whose parent has retired, died, or become disabled should ask at the social security office whether he can get benefits.

Benefits can continue to be paid during a vacation of up to 4 months if the person will be returning to school right after.

You Pay The Bill . . .

In these days, federal, state and local taxes take the cream from the earnings and savings of the average U. S. family.

The total tax bill today is a major problem for the head of a family. It must be paid ahead of groceries, clothes, home payments, doctor bills and everything else. It can be no other way. Governments can't run charge accounts for individuals.

Near confiscatory taxes have been brought about by the people themselves. They vote for candidates for office and for public officials who promise them all manner of luxuries for which the various levels of governments, local, state and federal, have no money to pay.

There is only one place for governments to get money and that is from the people. The more the people seek to get from their governments, the higher will go the taxes they have to pay. It is as simple as that.

The people will get no tax relief from governments as long as they swallow the Santa Claus bait of "something for nothing" from the tax spenders. For every handout promised, they will pay through the nose.

If you think federal "gifts" come free, think again — you will get the bill in some old or new form of taxation.

Only you can control your tax bill and mounting inflation by using your vote to restrain extravagance in governments and tax waste of your earnings and savings.

Remember that the bill for Santa Claus gifts from governments goes to you with your tax statement.

More Crawford County men were inducted into the armed service, leaving Grayling Wednesday. They are from Grayling, Archie J. Woskosi, Edwin A. Bowen, Leslie R. Hunter, Richard J. Lowe, and Esmond L. Houghton, from Frederic, Alan D. Leng, Edward H. Jungman and Alvah F. Hopkins, Beaver Creek, Henry J. Zacek, George J. Bentley and Harry L. Canfield, Maple Forest, Lester Bailey, Lovells, Dewey R. Hanna. Samuel J. Cloutier, Whispering Pines, Roscommon, who went directly to Camp Custer without taking his furlough, is also included in this group. The beautiful Masonic Temple banquet room was opened for the farewell banquet Tuesday evening the dinner being served by the members of the Eastern Star Lodge. About 125 attended the fine banquet. It was delicious and nicely served. Dr. J. F. Cook was master of ceremonies and was assisted in presenting the honored guests by Alfred Hanson, chairman of the county draft board who also presented a service flag to each selectee to be given to his family. Corp. Bill Joseph, son of Mr. and Mrs. A. J. Joseph, home for a few days from Camp Custer, also spoke. Major John Erkes, coordinator for 30 draft boards in Northern Michigan, gave the selectees who were about to enter the service some excellent suggestions.

Last Friday in a night tilt at Alpena the locals lost a thriller to the Thunderbolt varsity, 7-6, in a hard fought battle. The locals displayed great football. Play was even throughout, neither club dominating the play at any time and each took advantage of their big scoring chance. Early in the first quarter, Grayling's fast stepping right halfback and ace pass receiver, Bob Gilder, had the misfortune to suffer a fractured bone in his left leg and will be out for the season. In practice the boys are working hard to be ready for Lake City. Delbert Case who replaced Gilder at Alpena, is finding competition from Geirke, Entsminger, Corwin and Smock for Gilder's post. Probable line-up will be Burns and Babcock, ends, Harold Hatfield and Wheaton, tackles, James Kolka and Sorenson, guards, LaChapelle, center, captain Clark, quarterback, Ross Thompson, halfback, Sandy Thompson, fullback.

County Home Extension Groups Hold Rally

The Crawford County Home Extension Groups Kickoff Rally was held Sept. 14 at 1 p. m. at the American Legion Hall. Twenty ladies were present. The meeting was opened by the new Chairman Mrs. Clayton Hildebrand. The next lesson will be Sept. 28 at 1 p. m. at the new Grayling City Hall.

A REMINDER to group secretary-treasurers, reports are to go directly to the County Chairman, Mrs. Hildebrand.

New officers for next year were introduced. They are Mrs. Hildebrand, Chairman; Mrs. Allie Filley, Vice - Chairman; Mrs. John Wilcox, Secretary-Treasurer; Mrs. Delbert Case, Reporter.

The program was then turned over to David Olson, County Extension Director from Mio. He gave a very informative talk concerning the Home Agent and his responsibility of working in the family living programs and 4H. The Cooperative Extension Service is speculating on a Home Agent for Crawford County, which has not had the help of one in the past. The Cooperative Extension Service is being re-oriented and one request is that individual groups choose a name that does not imply that it is a hobby group, but that it is an educational study group.

A slide tape, "The Labor of Men," was shown to explain the overall extension program. The broad scope of its service includes: Agricultural production, marketing, home family living, community resource development, 4-H and youth.

The November 9th lesson "Traffic Safety" was highlighted as a very intensified lesson and all teenagers and parents are invited. Elmer Ostrohm was transferred from Crawford County.

BULLETINS put out monthly on consumer marketing will be given to group chairmen once a month. Also, there will be a bulletin display at the Courthouse.

There is a request for 4-H leaders. Anyone interested, please contact Mrs. Clayton Hildebrand, County Chairman.

Coffee, tea and cookies were served.

BRISTOL - ROBERTS WED SATURDAY

The marriage of Miss Joan Elizabeth Bristol to Mr. Michael Roberts took place at four o'clock on Sunday, September 19, 1965 at the Michelson Memorial Methodist Church. Performing the double-ring ceremony were the Rev. John W. Smith and the Rev. R. C. Puffer before the immediate families and some 30 guests. Music was by Mrs. Arthur Feldhausen. White chrysanthemums and gladioli graced the church altar.

Joan is the daughter of Mr. and Mrs. Clayton Bristol of Star Route, Grayling, and Michael the son of Mr. and Mrs. Clarence Roberts of 700 Maple Street, Grayling.

The bride was attired in an egg-shell wool knitted suit with brown accessories. She carried a small white Bible topped with yellow roses. Her attendant was Miss Shirley Ball of Ecorse, in a blue suit with brown accessories, and corsage of yellow roses.

James Brigham of Tawas City was best man.

For her daughter's wedding Mrs. Bristol chose a green brocade suit while Mrs. Roberts was dressed in a powder blue linen ensemble. Both mothers wore yellow roses.

A wedding supper for the wedding party and guests was held at Chief Shoppenagons Hotel at tables decorated with white mums and glads. Afterwards the newlyweds left for Mt. Pleasant, where Mike is a senior at Central Michigan University. Mrs. Roberts is a graduate of Gerrish-Higgins High School, and of Harper Hospital School of Nursing in Detroit.

Out of town guests attending were Mrs. Sybil Kenderly of Detroit, Mr. and Mrs. Robert Chrysler of Trenton, Mr. and Mrs. Walter Bristol, children, Danny, Sherry, Susan and Julie of Romeo, Mrs. Oscar Roberts and Mrs. Dolly McIntosh of Onaway, Mrs. George Smith of Kingsley, Mr. and Mrs. Donald Roberts of Three Rivers, Mass.

AIRPORTS
 (Continued from Page 1)

For the people who don't fly, general aviation might not seem so "vigorous and fabulous". But, airplanes operated solely for business purposes outnumber all domestic scheduled airlines more than 20 to one. These business airplanes fly more hours than all the airlines combined.

Just one airplane was so important to the success of one firm that the company refused to locate in a Mississippi town because there was no airport. The town built an airport at the cost of \$153,000. The plant located, employed more than 300 people and retail sales in the area have been more than a million dollars a year higher each year for the past three years that the plant has been operating.

"One airplane," an industry spokesman said, "may not seem vigorous or fabulous. But neither is one computer in the accounting department, nor one telephone switchboard. But when their contributions are related to the total aspects of doing business, each indeed is not only important but vital."

A third benefit that airports provide for people who don't fly is bringing transient money into the local economy. The famous "Fact Finder" study, conducted by the Michigan Department of Aeronautics revealed that statewide, 46% of the itinerant air passengers arrived in communities aboard their own or chartered aircraft (54% came by airlines). In one year, the study estimates that these transient general aviation travelers spent \$110,000,000 in the communities they visited.

In Manchester, N. H., it took the near loss of an important local industry to cause the development of an industry airport. Ten years ago, the Marian Electric Company was unable to locate at the Manchester Airport because the field was occupied by the Air Force. When the company began negotiations for property in Concord, the city of Manchester took action resulting in a new lease with the Air Force which would permit 40 acres to be sold to the electric company. Today, an industrial airport of 98 acres is located between the runways and additional space on the periphery of the field has been set aside for industrial expansion which city officials hope in five years will triple the present 1,000 workers at the airport-based plants.

The importance of locating airports where they can be readily accessible to people on the move is stressed by Cole Morrow, Director of Airports Service for the Federal Aviation Agency. "The airport," says Mr. Morrow, "is an en route stop, not a destination for most travelers." Neither is it the starting point for most travelers, although business frequently seeks for it to be.

A single theme runs through all these requests: a need to document to the nonflying public that the airport is important.

If bringing new business is important, if helping present business stay competitive is important, if transient dollars are important, if emergency facilities are important, then the airport is important.

Back in 1952 a report of the President's Airport Commission stated: "An airport exists within a community for the use of aircraft supplying the city with services necessary to its welfare."

That's pretty clear talk for a government report and means airports are really for people who don't fly.

HONORED ON 50th WEDDING ANNIVERSARY

Mr. and Mrs. Thorvald P. Peterson were honored by their children in celebration of their 50th wedding anniversary with an open house on Sunday, September 19th at the Harvey Rowland home on AuSable Drive from two-thirty to five o'clock; and with a dinner for the out of town guest at the Don Gottho home on Maple Street in the evening. The two homes were decorated with golden mums and yellow roses. The Petersons received phone calls as well as cards and flowers, and over 100 friends and relatives came to extend their congratulations and best wishes.

Friends and relatives from a distance were Mr. and Mrs. J. K. Burnham of Lansing, former teachers in Grayling, Dr. and Mrs. A. C. LaBine of Mullet Lake, Mrs. E. O. Safford, daughters Mr. and Mrs. Charles Aranyas of Vassar and Mr. and Mrs. Don Berry and daughters of Caro, Mr. and Mrs. James Ross and daughter of Akron, Ohio, Mr. and Mrs. W. R. Ross of Detroit, Mr. and Mrs. Harry Rowland of Vassar, and Miss Nellie Loss of Flint, who is a guest at the Peterson home for a couple of weeks.

Safford, and Mr. Peterson's brother, the late Adolph Peterson, were their attendants. The couple returned to Grayling to make their home in a newly built bungalow near what is now the Marshall Motel.

They lived in this location for seven years, then moved to their present home at 604 Maple Street. Their former home has been moved to the North Park subdivision near the Bruce Carlson home.

To Dedicate Scoreboard To Athlete's Memory

Rites will be conducted Friday evening, September 24, at Alcona High school's Coville Field, dedicating a new, modern electric scoreboard to the memory of the late Mike Weber, who lost his life in an automobile accident early this spring.

Weber, 19-year-old son of Mr. and Mrs. Merrill Weber, publisher of the Alcona County Herald at Lincoln, was a four-sport star at the local school and was a sophomore at Central Michigan University at the time of his death. He was an all-Northeastern Michigan Conference quarterback in 1963 and won 13 varsity letters in four years at Alcona High.

Ron Gamble of Green bush, who heads the popular "Week-end" television show in Detroit, will be master of ceremonies at the event while former teammates of Mike will be featured in the memorial rites which get under way at 7:30 preceding the Tigers' first home game of the 1965 gridiron season against Harrison. Others taking part will be Hugo Perri, superintendent of schools; Charles Krahnke, head football and basketball coach, and Rev. G. Douglas Taipalus, pastor of Calvary Baptist church at Mikado.

Mr. and Mrs. Robert Strong of Grayling will be in attendance.

Women of the Moose

The September 6th meeting was held with Sr. Regent, Betty Foster presiding and 13 members present. Sybil Miller sponsored by Ruth Isenbauer was initiated as a new member.

After the initiation the group went to the basement for the chapter night program. Gov. Art Stevenson and Sybil Miller put on a 10 minute skit concerning the business of both the men and women's departments. Bernice Carriek gave a talk on how the women of the Moose got started again locally.

Don't forget girls if you have jewelry you don't want or need please drop it off to me so I can get the jewelry sales set up for January.
